

# WEIGH2CONTROL

Intuitive and powerful, *Weigh2Control* centralizes and simplifies all your weighing operations.

## CONNECTED & EFFECTIVE

Anytime, anywhere!

- ▶ *Weigh2Control* replaces traditional interfaces and lets you keep an eye on your weighing operations anywhere, at any time.

## TRACEABILITY REQUIREMENT

Manage and share easily!

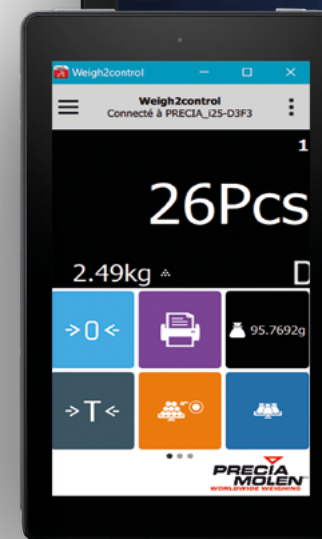

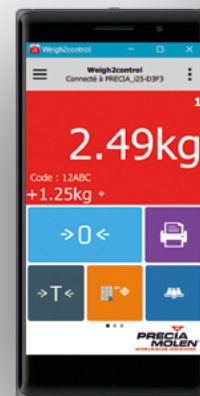

- ▶ Modify, monitor and keep your results after saving or transferring them in CVS format.

## FAST & HELPFUL

File on paper!

- ▶ You can link the application to a printer to get printouts in real time.

## AVAILABLE ON

## WIDE RANGE OF FUNCTIONS

With its user friendly interface  
**Weigh2Control is an ally for your productivity.**

SETTINGS  
AND PRODUCT  
SHEETS

### SAVE TIME!

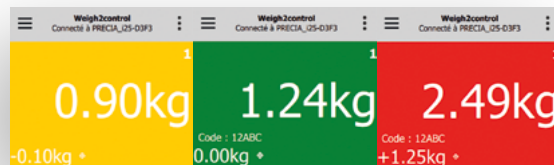

- ▶ Forget daily data input and simplify your mixes: with *Weigh2Control*, customized item records (10 available records or 90 in option).

### BOOST YOUR PRODUCTIVITY!

- ▶ Centralize your data and take advantage of having a single tool for all your management needs.

### CUSTOMIZE IT!

- ▶ For an application that is tailored to your needs and your environment, *Weigh2Control* is customizable: add visual signs or audio signals to highlight the triggered actions, etc.
